

PRIMARY INDUSTRY & RURAL DEVELOPMENT

One Nation will protect our primary industries from deregulation, spurious native title claims and withdraw from international treaties which put us at a disadvantage.

Our aims include:

- Stringent Border, Quarantine and Custom requirements.
- Strong support for the mining, oil and gas industry and processing and investment therein.
- Strong regulation and control of fracking to ensure environmental safeguards.
- Tariff protection in line with reciprocal trading partners, to offset foreign subsidised competition and reflect the new trading realities with major trading partners.
- Re-regulate where necessary, to create efficient accountable marketing agencies to maximise returns.
- Encourage farm forestry.
- Research into by-products utilization and value adding.
- Australian products promotion and content identification of all products.
- Urgent measures and financial support to reverse salinity. • Better infrastructure.
- Genuine environmental sustainability.
- Population decentralisation. Emphasis and innovative investment opportunities and funding for new regional cities
- Government Bank with local branches.
- No privatisation of water.
- No majority foreign ownership or control of Australian land or resources.
- Teeth and public accountability for Foreign Investment Review Board.
- Curb investment speculations which drive up the price of housing and land.
- Public Assets are not for sale but must be efficiently managed - accountability•.
- Regulated and uniform fuel prices to reduce costs. Emphasis on autogas.
- Promote tourism.
- No Genetically Modified Organism (GMO).

Australia's rural and regional communities are key contributors to our economy. We cannot afford losing their input and their skills. Without them, we would not stand a chance in times of crisis. One Nation firmly believes that a thriving rural and regional sector is vital for Australia's economy and its future.
